

GLORIOUS

Furniture for DJs, Producers and Vinyl Lovers

TURNTABLE LOWBOARD

The Glorious Turntable Lowboard is a high-quality piece of furniture in a retro 1960s design and is ideal for placement in your living room. With a dedicated surface for a turntable and plenty of space for your vinyl collection, the Turntable Lowboard is ideal as a HiFi listening station.

The open record crate invites you to flip through your collection and allows direct access to up to 130 12"-records. A closed-front compartment with push mechanism houses your amplifier, CDs or books. The smart cavity on the rear panel is designed to route cables, making them disappear easily. The Turntable Lowboard comes in a timeless design made of wood and is provided with a white high-gloss finish. The solid white ash wooden support frame provides stability and not only looks elegant, but reduces vibrations through shock-absorbing rubber feet.

FEATURES

- High-quality turntable lowboard in 60s retro design for your living room
- HiFi listening station: provides storage space for a turntable and plenty of space for records
- Open record crate for flipping through your collection and with access to up to 130 x 12"-records
- Front compartment with push mechanism for amplifiers, CDs or books
- Cavity on the rear panel hides unsightly wires
- Timeless design made of wood with white high-gloss finish
- Stable and elegant stand made of solid ash wood (white ash)
- Shock-absorbing rubber feet for damping vibrations

SPECIFICATIONS

- Material corpus: MDF wood with white high-gloss veneer
- Material stand: Ash wood (white ash)
- Dimensions corpus: 862 (w) x 420 (d) x 240 (h) mm
- Overall height: 444 mm
- Weight: 17 kg
- Delivery without decoration

MODULAR MIX RACK

s ideally suited for use as HiFi monitoring station,
y of storing vinyl. The 3-part construction consists
"-records, one compartment for 7"-records as well
or mixer.

offers enough capacity for up to 250 x 12"-records
and can accommodate a turntable, CD player or
mixer surface, interior space and at the bottom un-
derneath. The 7" compartment is also suitable for storing
possibility to route cables.

erized by an especially sturdy and robust construction for use as a HiFi station or DJ table (when three tables are joined together, the Modular Mix Rack can be used as an extension). Thanks to an easy assembly in just a few steps the system is ready for use in no time. The Modular Mix Station is available in black or white.

Multiple car

7" com

FEATURES

- Easy 3-part construction
 - Two large 12"-record compartments & one 7"-record compartment
 - Capacity for up to 250 x 12"-records and 250 x 7"-records
 - Storage area offers sufficient space for a turntable, CD player, etc.
 - Various ducts for cable routing on top, back and ground floor
 - Especially sturdy and robust construction compared to conventional furniture solutions
 - Ideal as HiFi monitoring station with simultaneous vinyl playback
 - Can also be used as extension for the Modular Mix Station
 - Available in: black or white

SP

- Material: MDF wood
 - Dimensions: 470 (w) x 48
 - Weight: 22.8 kg
 - Delivery without decoration

MODULAR MIX STATION

The Glorious Modular Mix Station is ideally suited for use as a DJ table, while also offering the possibility of storing vinyl. The 6-part construction consists of four compartments for 12"-records, two compartments for 7"-records, space for an amplifier and cables, as well as a large storage space for a DJ setup plus laptop. The high-quality acrylic front plate with opaque glass look can be illuminated indirectly via optionally available LED strips.

In total, the Modular Mix Station offers enough capacity to store up to 200 12"-records and 120 7"-records. The surface can accommodate two turntables/CD players and a mixer or a controller plus laptop. Various ducts on the upper surface, interior space and at the bottom allow to hide unsightly cables and plugs. A spacious compartment with push mechanism offers additional storage space for various items, such as amps and socket strips, or spare equipment.

The Modular Mix Station is especially sturdy and making it perfectly suited for professional DJ applications. Thanks to an easy assembly, in just a few steps the DJ table is ready for use in no time. The Modular Mix Station is made of solid wood and available in black or white. By combining the table with the Modular Mix Rack, the storage space can be additionally expanded.

FEATURES

- Modular DJ mix station in 6-part design
- Four 12"-record compartments and two 7"-record compartments
- Storage capacity for amplifier, cables and large storage area for a DJ setup with laptop
- High-quality opaque acrylic front panel; can be used optionally for indirect lighting
- Capacity for up to 200 x 12"-records and 120 x 7"-records
- Ideal as DJ table with integrated vinyl storage
- Various ducts for cable routing on top, interior and ground
- Spacious compartment with push mechanism for storing cables, amplifiers, etc.
- Especially sturdy and robust construction compared to conventional furniture solutions
- Storage area's extension in combination with the Modular Mix Rack
- Available in: black or white

SPECIFICATIONS

- Material: Sturdy wood construction
- Dimensions: 1350 (w) x 480 (d) x 910 (h) mm
- Weight: 42.3 kg (delivered in 2 cartons)
- Delivery without decoration

GIG BAR

The Glorious Gig Bar is a stylish and modern piece of DJ furniture with a very tasteful design. A nifty combination of sophisticated materials emphasize the Gig Bar's ambitions to be more than just a utility place for DJ equipment. An aluminum support stabilizes the table giving the Gig Bar that certain touch. The acrylic front plate improves the Glorious gig Bar and makes it a real eye-catcher. The optionally available LED kit puts the table in the limelight, as a multi-colour LED strip illuminates the table softly in various shades. The integrated cable cavity as well as the pre-mounted connector strip avoid any cable tangle.

Internal cable management

LED-Kit optionally available

Translucent acrylic front

FEATURES

- For 2 turntables or tabletop media players or controller and 1 mixer (up to 14")
- High quality acrylic front plate
- Massive aluminum support
- Optional LED kit available

SPECIFICATIONS

- Material: MDF wood
- Dimensions: 1094 (w) x 490 (d) x 1000 (h) mm
- Weight: 31 kg
- Maximum load panel: 30 kg
- Delivery without decoration

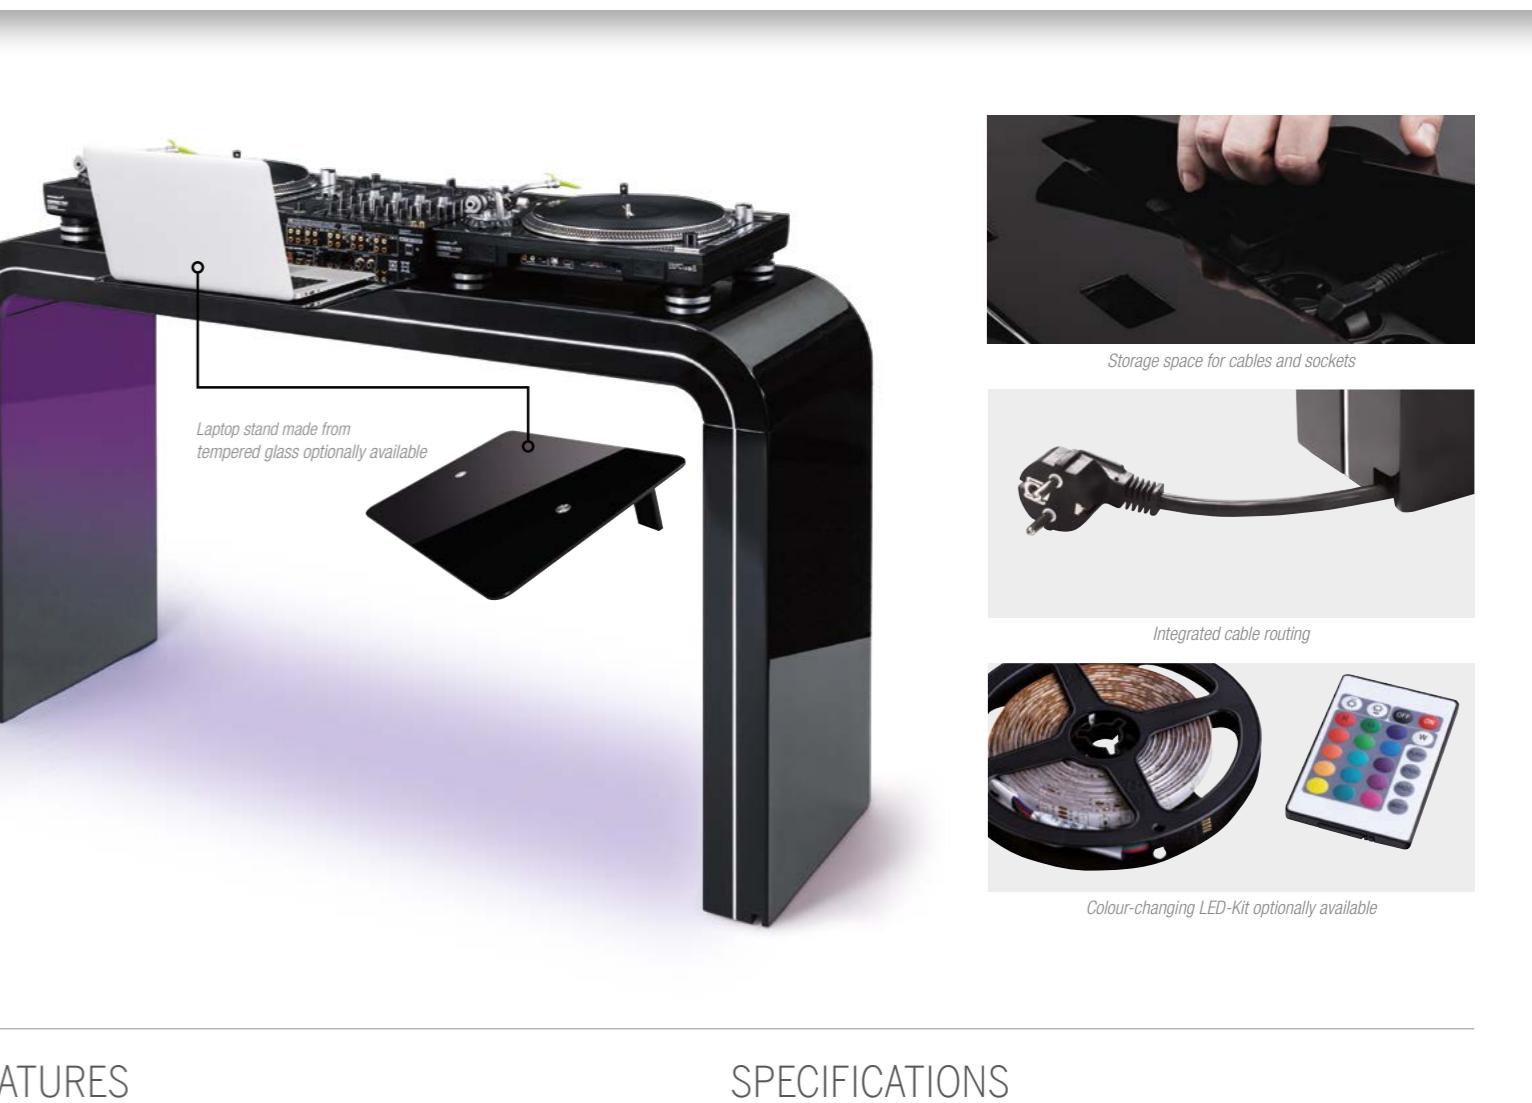

SESSION CUBE XL

The Glorious Session Cube XL is a stylish yet robust DJ workstation designed for use either at home or in a bar/lounge environment. The stable construction offers more than adequate space and the ideal working height for a classic DJ setup or modern controller equipment. Compared to its predecessor, the Session Cube XL was increased in width by 25 cm. Due to the simple construction, it is remarkably transportable. Thanks to the simple construction method, the Session Cube XL is easy to transport as its three core parts are quick to set up and break-down.

Not only does the Session Cube XL look great, but it's also practical. The built-in cable routing system and integrated cable-tidy duct keeps the work space clutter-free. The duct also masks a storage space which can easily house a multi-way power socket directly beneath the table's surface.

The high-quality piano finish of the Session Cube XL complements the minimalist design with a striking and stylish finish to suit any interior. The optionally available RGB LED illumination kit can then be installed discretely into the structure, to help the Session Cube XL stand-out like no other DJ booth. For convenience, the light show from the LED kit can be controlled by the supplied remote control. The Session Cube XL can also be expanded on to accomodate a separate laptop stand (sold separately), for modern digital DJs who like their laptop to sit above their DJ system. The laptop stand is made of a sturdy glass plate that can be mounted seamlessly on the table via two aluminum carriers. Glorious Session Cube XL: A smart designer table for DJs.

FEATURES

- Designer DJ workstation
- Easy assembly via three-part construction consisting of top part and two pedestals
- Integrated cable routing with sufficient storage space for cables & socket
- Sturdy, safe stand thanks to wide standing construction
- Indirect RGB LED lighting with remote control for colour changing (optionally available)
- Optionally available laptop stand made of glass with aluminum angles for direct mounting

SPECIFICATIONS

- Material: MDF construction with piano finish
- Dimensions: 1500 (w) x 450 (d) x 900 (h) mm
- Weight: 32 kg
- Delivery without decoration

MIX STATION 2

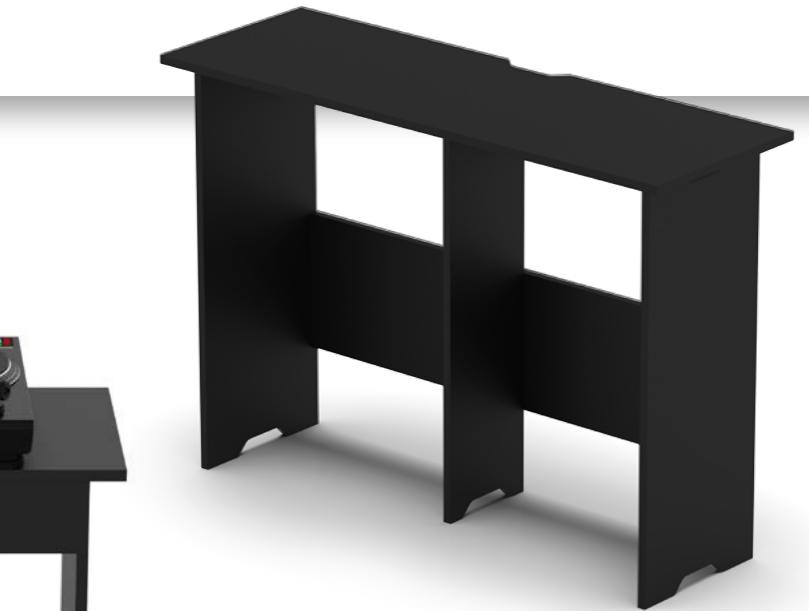

FEATURES

- Fits 2 turntables or CD/media players and 1 mixer up to a width of 14" or a DJ controller with laptop
- Turntables can be positioned vertically and horizontally
- Sturdy, anti-vibration and ergonomic construction
- Cable outlets on the front and side panels
- Flat working surface suitable for classic and digital DJ Setups
- Visually matching with the Glorious Modular Mix series and Vinyl Storage furniture

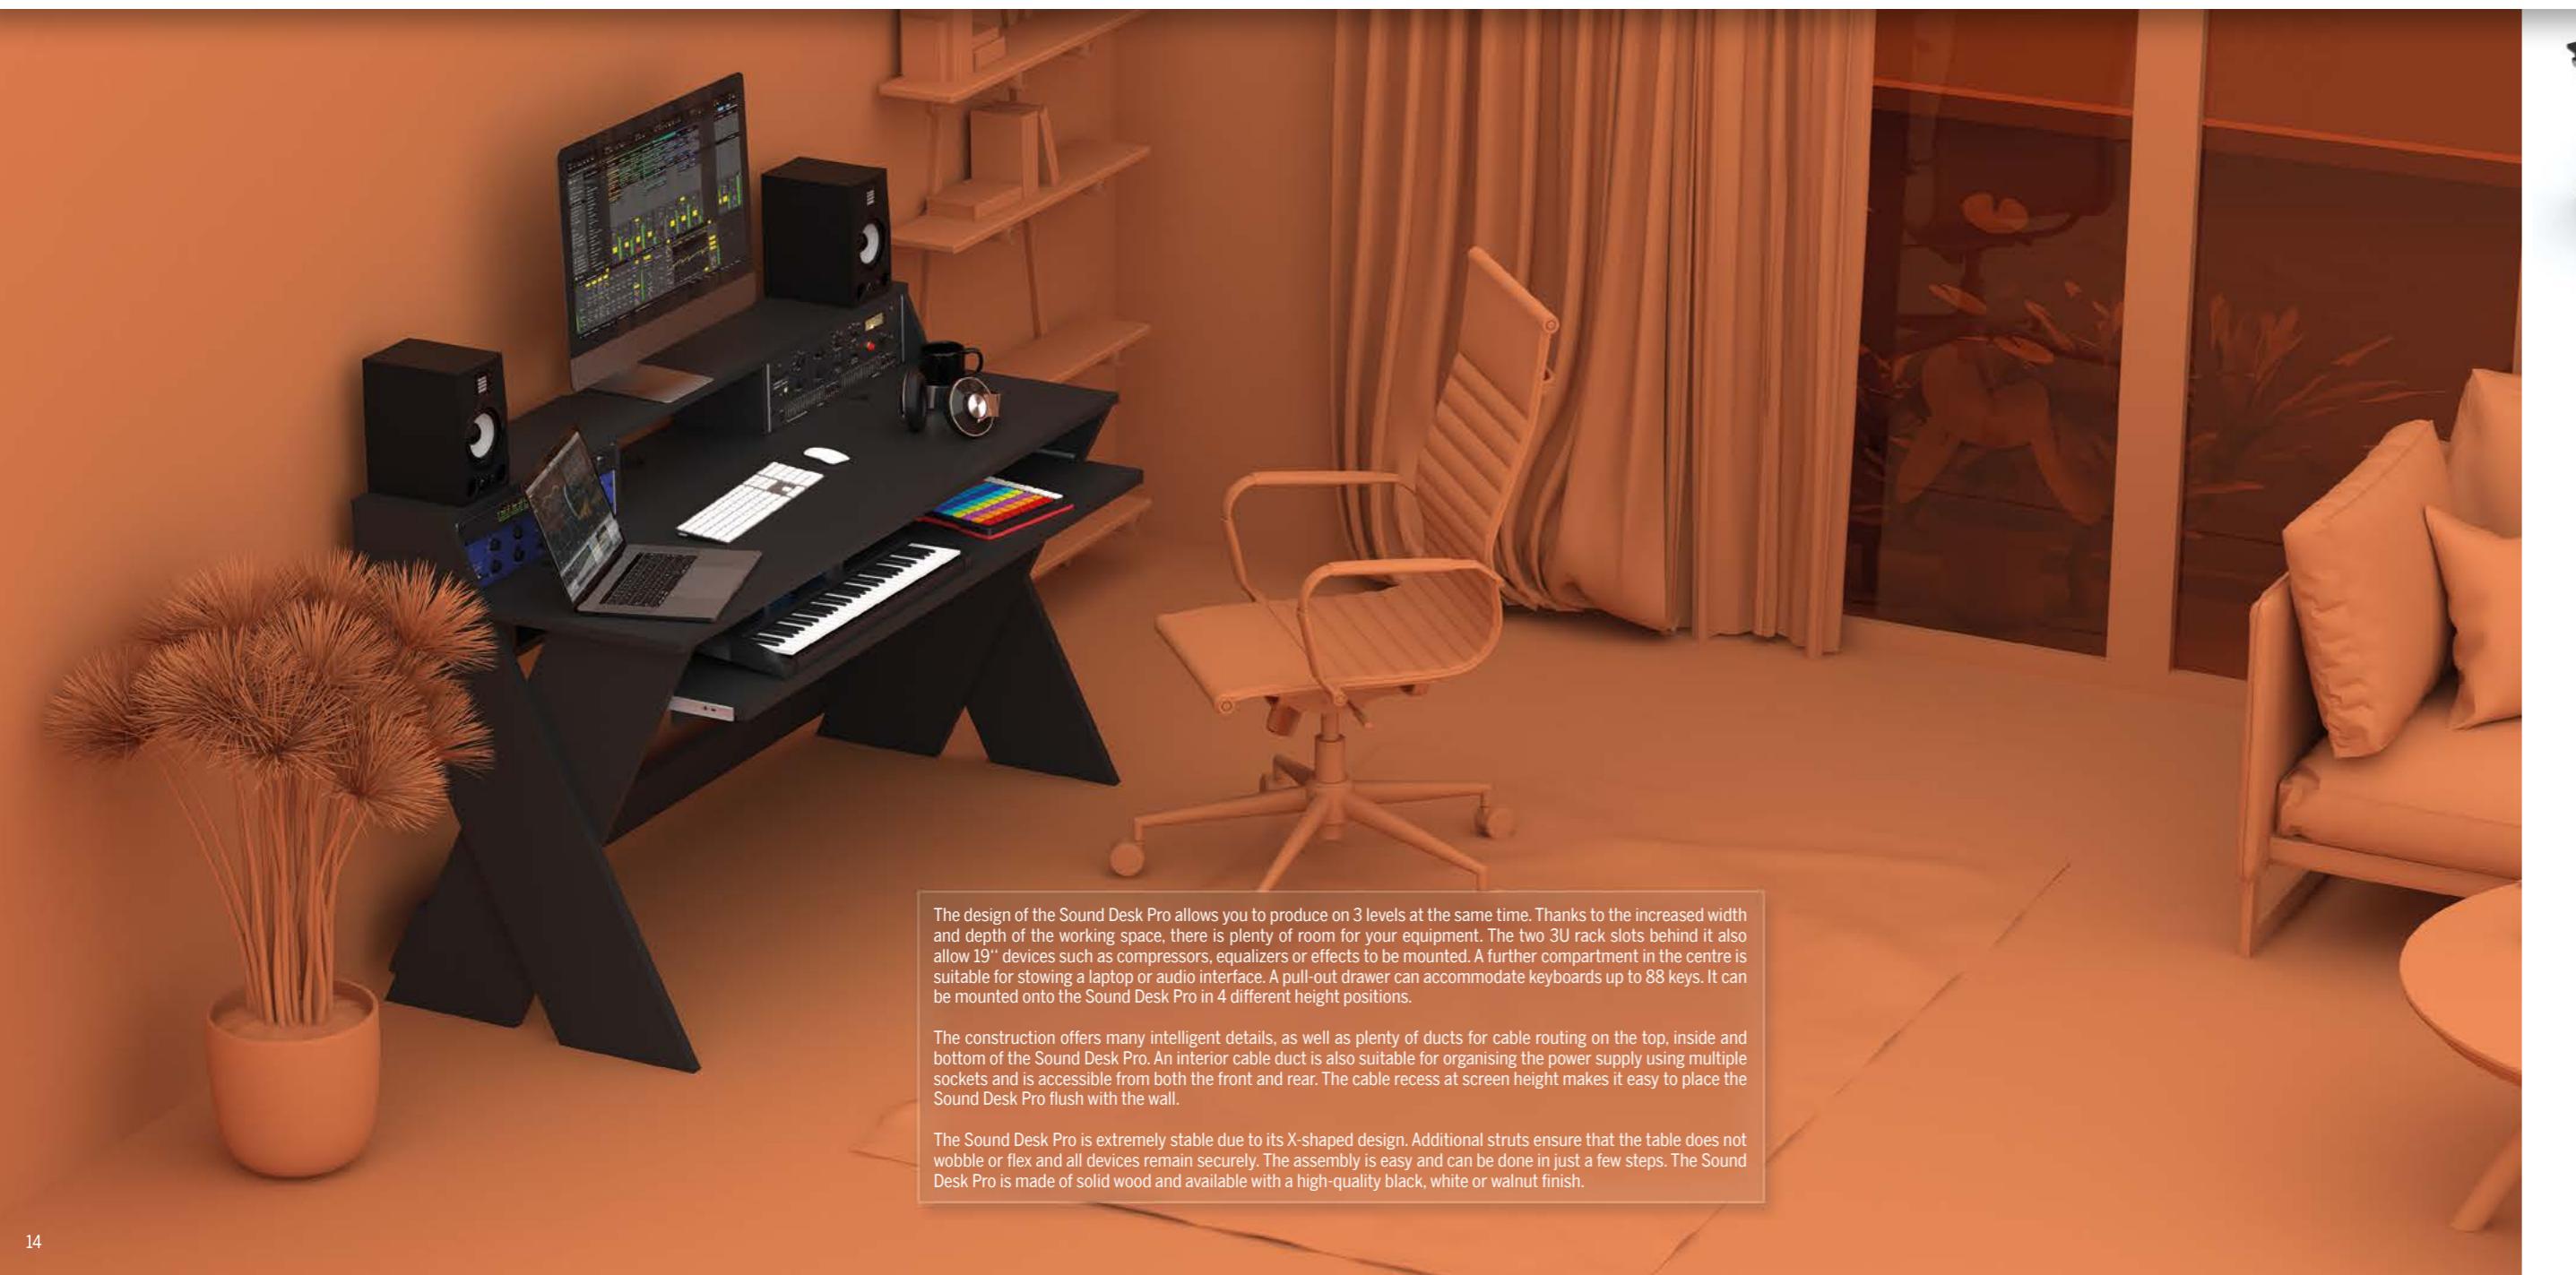

SPECIFICATIONS

- Material: Particle board
- Dimensions: 1280 (w) x 430 (d) x 898 (h) mm
- Weight: 21.7 kg
- Delivery without decoration

SOUND DESK PRO

The design of the Sound Desk Pro allows you to produce on 3 levels at the same time. Thanks to the increased width and depth of the working space, there is plenty of room for your equipment. The two 3U rack slots behind it also allow 19" devices such as compressors, equalizers or effects to be mounted. A further compartment in the centre is suitable for stowing a laptop or audio interface. A pull-out drawer can accommodate keyboards up to 88 keys. It can be mounted onto the Sound Desk Pro in 4 different height positions.

The construction offers many intelligent details, as well as plenty of ducts for cable routing on the top, inside and bottom of the Sound Desk Pro. An interior cable duct is also suitable for organising the power supply using multiple sockets and is accessible from both the front and rear. The cable recess at screen height makes it easy to place the Sound Desk Pro flush with the wall.

The Sound Desk Pro is extremely stable due to its X-shaped design. Additional struts ensure that the table does not wobble or flex and all devices remain securely. The assembly is easy and can be done in just a few steps. The Sound Desk Pro is made of solid wood and available with a high-quality black, white or walnut finish.

Pull-out drawer for keyboards

Ducts for cable routing

Hidden compartment shelf for multiple sockets

FEATURES

- Professional Studio Workstation
- Thoughtfully designed construction with many application possibilities
- Produce on 3 levels simultaneously, large working space with increased width and depth
- Two integrated 3U racks for 19" equipment, centre storage compartment for laptops, audio interfaces etc.
- Pull-out drawer for keyboards (up to 88 keys)
- Various ducts for cable routing on top, interior and ground
- Interior cable duct for multiple sockets, accessible from front and rear
- Extremely stable build with additional struts
- High torsional stiffness thanks to X-shaped design
- Available in: black, white or walnut

SPECIFICATIONS

- Material: Sturdy wood construction
- Dimensions: 1550 (w) x 650 (d) x 932 (h) mm
- Weight: 39.7 kg (delivered in 2 space-saving cartons)
- Load keyboard tray up to 12.5 kg (recommended) / 15 kg (max)
- Delivery without decoration

SOUND DESK COMPACT

Creativity, even in small spaces With the Glorious Sound Desk Compact, even producers with limited space can enjoy all the benefits of a professional studio workstation. Although compact, the Sound Desk Pro's little brother doesn't skimp on functionality, design or stability. Smart design: The cleverly designed studio workstation provides space for studio monitors at ear level and a screen at eye level. Directly below, on two 3U racks, there's space for 19" outboard equipment, so that nothing interferes with the creative process.

It's small, but spacious In spite of its small size, the studio workstation can easily accommodate a laptop, audio interface or synthesiser. Ergonomic working: The work surface hides a pull-out keyboard tray large enough to hold keyboards with up to 61 keys or similar peripherals. The keyboard tray can be installed at six different heights to make producing as ergonomic as possible. Clever details: The studio workstation has multiple cable ducts, allowing it to be set up as a free-standing piece or flat against a wall. A cable channel built into the work surface facilitates centralised cable routing for a cleaner and tidier workspace.

Designed for stability: The Sound Desk Compact's X-shaped design and additional bracing make it remarkably stable. The stylish wood finish emphasises the studio workstation's high quality.

Available in black, white or walnut

Hidden compartment shelf for multiple sockets

Ducts for cable routing

Pull-out drawer for keyboards

FEATURES

- Offers enough space to set up laptop/computer, screen, studio monitors, audio interface, 19" rack-mount equipment, MIDI controllers, synths and a master keyboard

WORKBENCH

The new working console for home and studio projects by the creative Glorious hotbed comes with a clearly arranged design and is available in three colour variants. The Glorious manufacturers have worked flat out thus creating a working station that is equally intended for producers, studio engineers and hobby musicians. The construction is extremely robust, assembly can be carried out in no time and the classy piece of furniture offers space for important objects from the producing daily routine. Whether amplifier, studio mixer, microphone, keyboard, headphones or other equipment: Everything can be stored ergonomically and it all remains in reach. The pull-out drawer is very convenient for placing a master keyboard on top. When no longer required the drawer can easily and comfortably be pushed back thus facilitating a comfortable workflow for PC keyboard and equipment. Elaborate cavities for cable guide are self-evident and there is also enough space for DVDs, books or accessories. On the elevated second level it is possible to smoothly place large TFT displays. On the left and right side of this monitor space you can find two designated trays for studio monitor speakers. The chief attraction is that these trays are revolvable. This way it is possible to find the perfect position for the speakers. Glorious Workbench: Easily assembled, conveniently stored, well produced.

Available in black, white or walnut

FEATURES

- Convenient producing workstation for home and project studios
- Sturdy wood construction
- Pull-out drawer for keyboards
- Two integrated 4 U racks for 19" equipment
- Space for CDs, DVDs, books, etc. with cavities for cable guiding
- Easy and trouble-free assembly
- Enough space for PC keyboard, mouse, studio mixer and further equipment
- Second level for large displays
- Convenient, revolvable trays for monitor speakers
- Available in: black, white or walnut

- Dimensions with rotary tables: 1560 (w) x 580 (d) x 980 (h) mm
- Weight: 39.5 kg
- Delivery without decoration

MODULAR SIDE RACK

The rack extension for studio desks
The Glorious Modular Side Rack is a well thought-out extension for the studio desks of the Sound Desk and Workbench series, which ensures order in the often chaotic everyday life of the studio. The functional division offers space for all sorts of peripherals as well as easy access to them.

Individually adjustable
No two recording studios are the same, which is why the Glorious Modular Side Rack was designed with maximum flexibility in mind. The shelf, the pull-out drawer and the rack space (12U) of the main compartment can be adjusted in height and thus to individual requirements. Regardless of whether preamp, effects devices, drum machines or turntables – everything finds exactly the space it needs in this stylish rack.

Additional storage space
The side compartment with a push-to-open door mechanism and integrated cable openings is ideal for storing vinyl, a tower PC or other accessories. This additional storage feature always keeps the work surface tidy.

Flexible set-up, easy mounting
Depending on preferences and requirements, the Glorious Modular Side Rack can be placed either on sturdy metal feet or smooth-running castors. Both options are included in the scope of delivery, so that the studio rack can be easily moved if necessary. Mounting is quite simple – the mounting material and rack screws are included in the packaging.

Matching colour options
Like the Sound Desk and Workbench tables, the Side Rack is available in black, white and walnut to ensure a unified appearance to the set-up.

Optional Modular Side Rack Adapter
For seamless enlargement of the work surface, the optional Modular Side Rack Adapter is available to connect the Modular Side Rack directly to the studio workstation.

FEATURES

- Thoughtfully designed studio rack extension for the Sound Desk and Workbench series
- Fully customizable compartments: shelves, pull-out drawer and racks are adjustable in height
- Suitable as a studio rack extension, mobile HiFi listening station or for gaming PCs
- Pull-out drawer for drum machines or turntables
- Configurable rack space (12U) provides plenty of room for preamps, effect processors, and other rack equipment
- Side shelf compartment for storage of vinyl, accessories or a tower computer with push-mechanism door and cable outlets
- Including metal feet and safety castor wheels for your preference
- Ships flat-packed, including assembly materials and rack screws
- Optional Glorious Modular Side Rack Adapter for a seamless increased working surface for the Sound Desk and Workbench series
- Available in: black, white or walnut

SPECIFICATIONS

- Material: Sturdy wood construction
- Dimensions: 727(W) x 480(d) x 760(h) mm / 778(h) mm (with height adapter)
- Weight: 28.25 kg
- Recommended maximum load desk top: 35 kg
- Recommended maximum load pull-out tray: 20 kg
- Recommended maximum load tray: 20 kg
- Delivery without decoration

RECORD BOX SERIES

The Record & CD Box Series consists of plain and solid storage systems for 12" records or CDs. These are made of quality MDF wood, available with a black or white finish. Thanks to an easy assembly, in just a few steps the storage solutions are ready for use in no time. By combining further modules of the Record & CD Box Series, the storage space can be additionally expanded.

RECORD RACK 330

- Advanced vinyl station with 2-piece layout
- Combination of Record Box Advanced 110 and Record Box 230
